

## Uploading Your BC Vaccine Card

To better protect all those attending any SISK A event, confirmation of vaccination status will soon be required prior to members participating in-person at indoor or outdoor SISK A events such as meetings, courses, paddles, or other group gatherings.

To make it easier for paddle leaders and clinic facilitators we would like to be able to confirm your vaccination status prior to any out door activity where scanning would be difficult we are asking members to upload a copy of their BC Vaccine Card. If you are fully vaccinated, you will then only need to identify yourself to club organizers to participate in SISK A events.

We have developed a process that allows you to upload an image of your BC Vaccine Card to our server. Be assured that the QR code contains no personal information. The only information displayed when the QR code is displayed is your name, the date it was issued and whether you have had one or both vaccinations.

When we scan the image that you upload we simply indicate that you have been vaccinated and the image you uploaded is deleted from the server.

## Download A Copy Of Your BC Vaccine Card

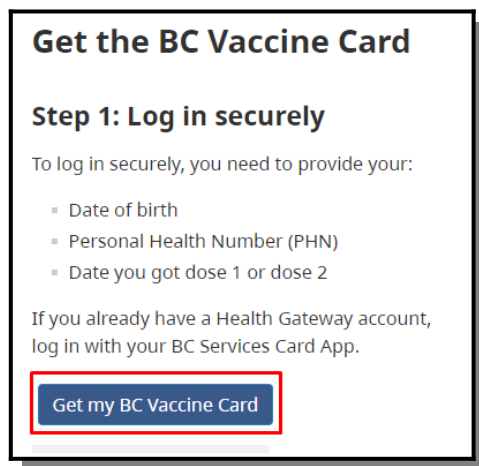

While you may have a copy of your vaccine passport on your phone depending on you comfort level you may find the uploading process easier if you down load a copy to another device such as a pc, mac, tablet, or iPad.

The one point to keep in mind when you save the image is that it must be in jpg, jpeg, or png format.

To download a copy of your BC Vaccine Card:

1 - Point your browser to [Proof of vaccination and the BC Vaccine Card - Province of British Columbia \(gov.bc.ca\)](https://www2.gov.bc.ca/gov2/health/immunization/proof-of-vaccination-and-the-bc-vaccine-card)

Click on [Get My BC Vaccine Card](#)

2 - Enter the require information and click on **Enter**

### Access Your BC Vaccine Card

To access your BC Vaccine Card, please provide:

Personal Health Number  
 ✓

Date of Birth

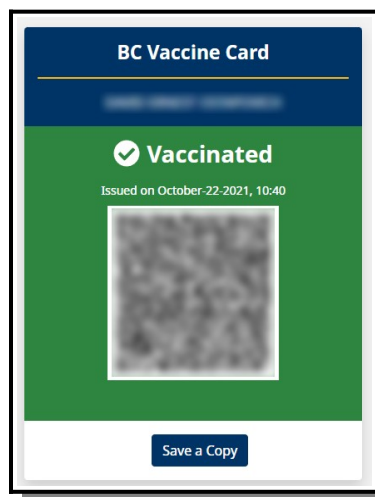

Date of Vaccine (Dose 1 or Dose 2)

[Privacy Statement](#)

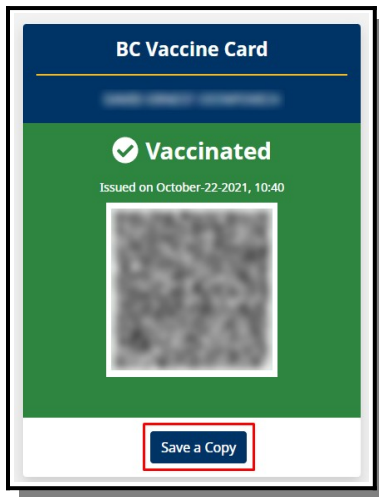

OR

Already a Health Gateway user?

3 - Your BC Vaccine Card will be displayed

4 - You can download a copy by clicking on **Save a Copy**. How the image is saved will depend on your browser and how it is set up.

Make sure you select **Image (BC Proof)**

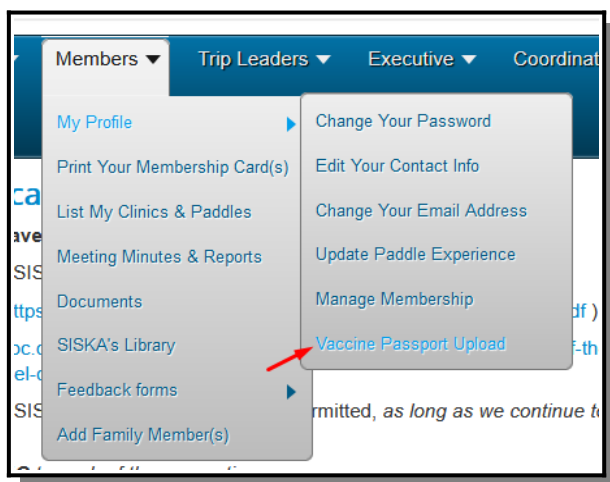

## Upload A Copy Of Your BC Vaccine Card

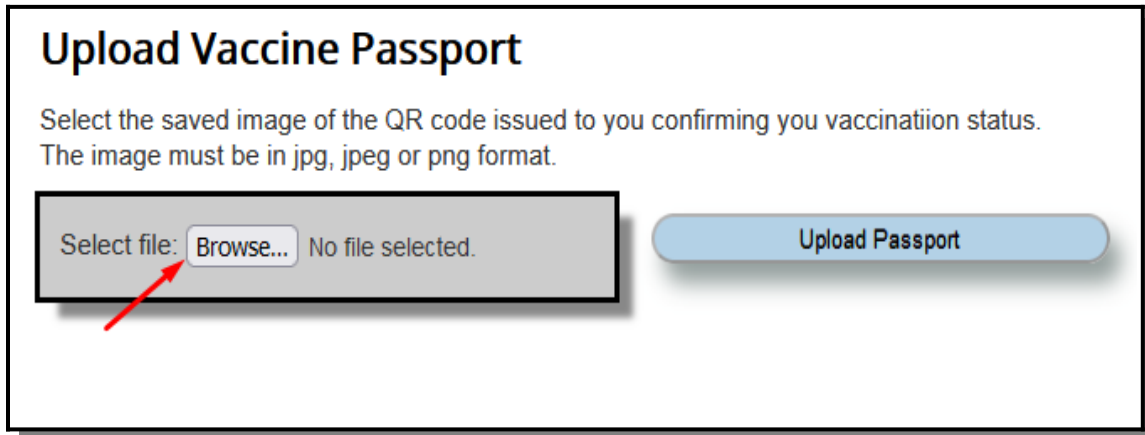

Follow these steps to upload a copy of your BC Vaccine Card

1 – Logon to SISKAs web site

2 - Under the **Members** menu tab select **My Profile/ Vaccine Passport Upload**

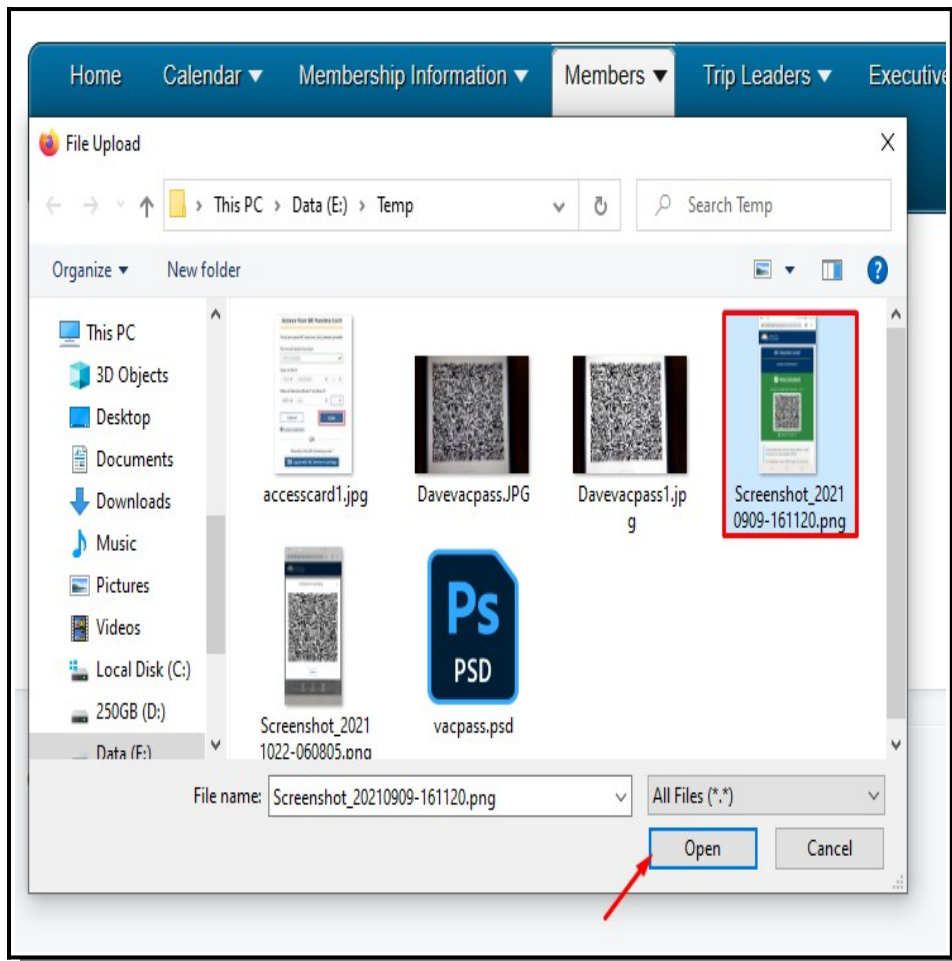

3 - This takes you to the Upload Vaccine passport page. Click on **Browse**. Only 1 image can be uploaded at a time.

4 - This will open a window where you can navigate to where you saved the image. Note that the following image may appear different depending on the device you are using.

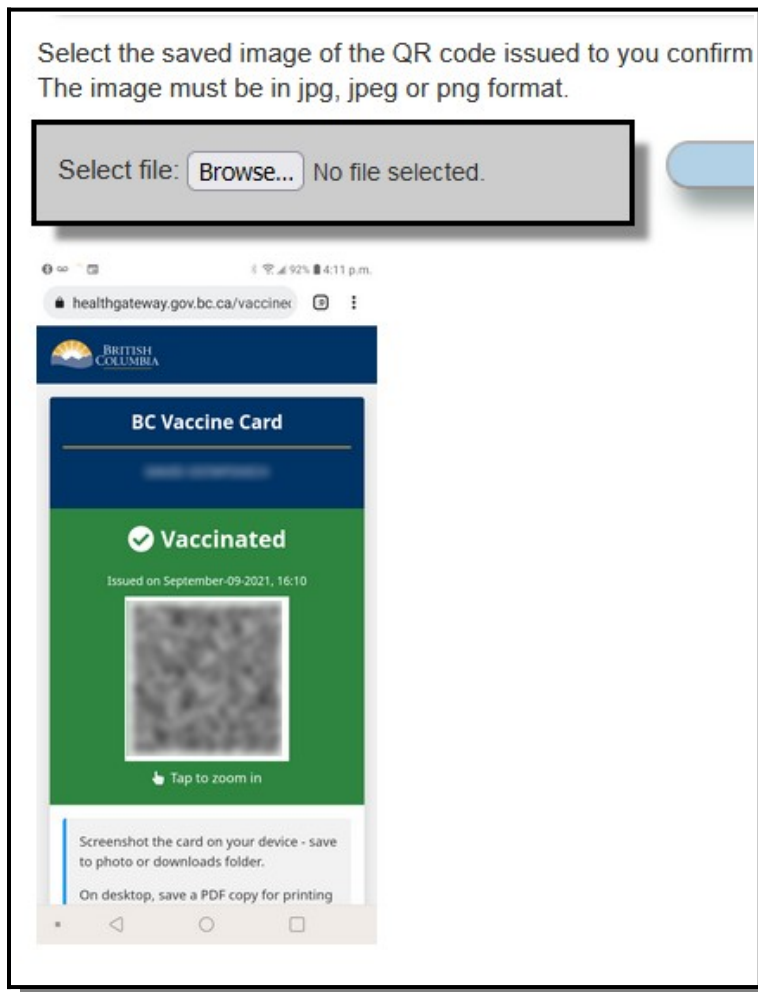

Locate the image, making sure that it is in jpg, jpeg, or png format, and **Open** it.

5 - The page will show the name of the image that is to be uploaded. Click on **Upload Passport**

6 – The image is uploaded to our server. A message is displayed at the top informing you that the image was uploaded and the image is displayed at the bottom.

## **Verification**

Once the information has been confirmed you will receive an email letting you know that the information has been updated on our server. On the off chance that there is an issue with the uploaded image we will get in touch with you. The verification process is a manual process and will be done in the order that the images were uploaded so it may take a few days to actually confirm you information.

If you have any problems or issues please contact [web@siska.ca](mailto:web@siska.ca)
